Update-AppvSequencerPackage.....	9

Cmdlet: Expand-AppvSequencerPackage

Synops

Expand-AppvSequencerPackage [-AppvPackagePath] <string> [<CommonParameters>]

Syntax

Description

Parameters

Parameter :**AppvPackagePath**

Required	true
Position	0
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Cmdlet: New-AppvPackageAccelerator

Synops

New-AppvPackageAccelerator [-Installer] <string> [-InputPackagePath] <string> [-Path] <string> [-AcceleratorDescriptionFile <string>] [<CommonParameters>]

New-AppvPackageAccelerator [-InstalledFilesPath] <string> [-InputPackagePath] <string> [-Path] <string> [-AcceleratorDescriptionFile <string>] [<CommonParameters>]

Syntax

Description

Parameters

Parameter :**AcceleratorDescriptionFile**

Required	false
Position	Benannt
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**InputPackagePath**

Required	true
Position	2
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**InstalledFilesPath**

Required	true
Position	1
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Installer**

Required	true
Position	1
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Path**

Required	true
Position	3
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Cmdlet: New-AppvSequencerPackage

Synops

New-AppvSequencerPackage [-Name] <string> [-Path] <string> [-Installer] <string> [[-PrimaryVirtualApplicationDirectory] <string>] [-FullLoad] [-TemplateFilePath <string>] [<CommonParameters>]

New-AppvSequencerPackage [-Name] <string> [-Path] <string> [-AcceleratorFilePath] <string> [-InstallMediaPath] <string> [<CommonParameters>]

New-AppvSequencerPackage [-Name] <string> [-Path] <string> [-AcceleratorFilePath] <string> [-InstalledFilePath] <string> [<CommonParameters>]

Syntax

Description

Parameters

Parameter :**AcceleratorFilePath**

Required	true
Position	2
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**FullLoad**

Required	false
Position	Benannt
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**InstallMediaPath**

Required	true
Position	3
Default value	

Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**InstalledFilePath**

Required	true
Position	3
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Installer**

Required	true
Position	2
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Name**

Required	true
Position	0
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Path**

Required	true
Position	1
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**PrimaryVirtualApplicationDirectory**

Required	false
Position	3
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**TemplateFilePath**

Required	false
Position	Benannt
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Cmdlet: Update-AppvSequencerPackage

Synops

Update-AppvSequencerPackage [-InputPackagePath] <string> [-Name] <string> [-Path] <string> [-Installer] <string> [-FullLoad] [<CommonParameters>]

Syntax

Description

Parameters

Parameter :**FullLoad**

Required	false
Position	Benannt
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**InputPackagePath**

Required	true
Position	0
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Installer**

Required	true
Position	4
Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Name**

Required	true
Position	1

Default value	
Accept pipeline input?	false
Accept wildcard characters?	

Parameter :**Path**

Required	true
Position	2
Default value	
Accept pipeline input?	false
Accept wildcard characters?
